Yealink

Yealink Audio Conferencing Solution
Easy Conferencing, Clear Communication

Conferencing is a rapidly growing market and efficient communication and collaboration is critical to business success. The number of units sold within the tabletop conferencing market is predicted to grow 12.9% and the VoIP segment is expected to growth 12.7% annually, according to Frost & Sullivan report in 2017.

Yealink designs its audio conferencing solution to suit a range of different meeting environments. The CP960 and the CP920 address today's audio conferencing challenges and unify a clear-and easy conferencing communication experience for both in-room and remote participants.
